

BUTCHER ENERGY STATION

FUEL THE FUTURE

📍 Caloocan South, Metro Manila, Philippines

INVESTOR PITCH DECK 2026

THE ENERGY GAP IN CALOOCAN SOUTH

OUTDATED FACILITIES

Existing gas stations are aging, with poor lighting and limited services that fail to meet modern safety and efficiency standards.

NO EV INFRASTRUCTURE

Despite the rise of electric vehicles in Metro Manila, Caloocan South has zero dedicated public EV charging stations.

POOR CUSTOMER EXPERIENCE

Convenience stores are cramped, lack premium offerings, and fail to provide modern amenities for the 24/7 commuter.

⚠️ **IMPACT: LOST REVENUE FROM THE GROWING EV MARKET AND MODERN PREMIUM CONSUMERS.**

BUTCHER: THE NEXT-GEN ENERGY HUB

A ONE-STOP DESTINATION FOR MODERN ENERGY AND CONVENIENCE.

INTEGRATED ENERGY

Combining traditional high-quality fuel with ultra-fast EV charging to serve all vehicle types in one seamless experience.

SUSTAINABLE POWER

Iconic solar canopy design reduces grid dependency, lowers operational costs, and establishes a green brand identity.

PREMIUM RETAIL

A modern, 24/7 convenience store offering high-margin products and a comfortable stop for the busy Metro Manila commuter.

PRIME LOCATION, MASSIVE TRAFFIC

1.7M

TOTAL POPULATION IN CALOOCAN

32,180

PEOPLE PER KM² (DENSITY)

3.6M+

DAILY VEHICLE TRIPS IN METRO MANILA

STRATEGIC TRANSIT HUB

 **EDSA MONUMENTO**

 **SAMSON ROAD**

 **RIZAL AVENUE**

 **C-3 ROAD**

BUTCHER is positioned at the northern terminus of EDSA, capturing high-volume traffic from commuters, industrial transport, and local residents in one of the world's most densely populated urban centers.

DIVERSIFIED REVENUE STREAMS

FUEL SALES

VOLUME DRIVER

High-volume traditional fuel sales (Gasoline/Diesel) serving as the primary customer acquisition hook.

CONVENIENCE STORE

25-35% MARGIN

Premium retail offerings and 24/7 essentials providing consistent high-margin daily revenue.

EV CHARGING

60-70% MARGIN

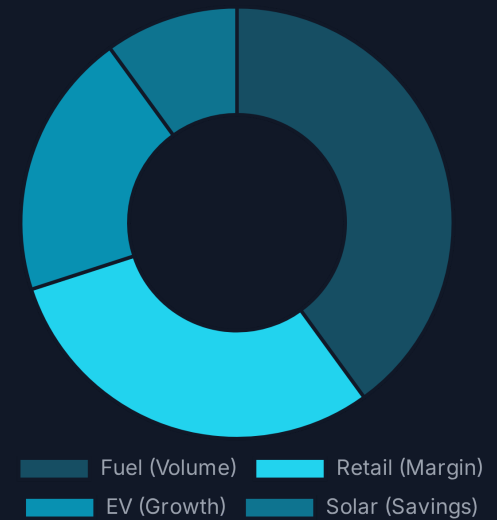

Ultra-fast charging services for the growing EV market with minimal overhead and high profitability.

SOLAR SAVINGS

OPEX REDUCTION

On-site generation significantly reducing monthly utility expenses for pumps, lighting, and retail.

REVENUE STRATEGY MIX

"Fuel as the hook, Retail & EV as the margin drivers."

WHY BUTCHER WINS

FIRST-MOVER ADVANTAGE

Establishing the first modern EV charging hub in Caloocan South, capturing the early adopter market and securing prime real estate.

EVIDA COMPLIANCE

Fully aligned with the Electric Vehicle Industry Development Act, unlocking fiscal incentives, tax breaks, and priority registration perks.

MODERN BRANDING

A premium, high-tech aesthetic that resonates with modern consumers and differentiates BUTCHER from legacy fuel providers.

OPERATIONAL EFFICIENCY

Utilizing a 24/7 DODO model and solar-powered infrastructure to maximize profit retention and minimize utility overhead.

STRONG RETURNS, SUSTAINABLE GROWTH

₱27.0M

STARTUP CAPITAL

₱252K

MONTHLY NET INCOME

₱3.02M

ANNUAL PROFIT

4-5 YRS

PAYBACK PERIOD

Our financial model assumes a **moderate growth trajectory**, with revenue scaling as EV adoption increases in the National Capital Region.

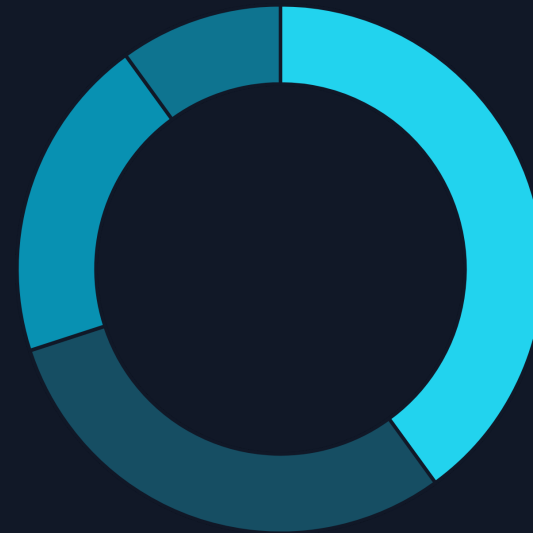

PARTNER WITH THE FUTURE OF ENERGY

₱27,000,000

TOTAL INVESTMENT REQUIRED

We are seeking a strategic partner to join us in establishing the premier energy hub in Caloocan South.

Investor Value: Equity partnership in a prime real estate asset with stable, long-term cash flow and exposure to the high-growth EV transition market.

■ 40% Infrastructure

■ 20% Inventory/WC

■ 30% Equipment

■ 10% Marketing

BUILT FOR EXCELLENCE

24/7 OPERATIONS

Continuous service delivery across three 8-hour shifts, ensuring maximum uptime and capturing revenue from the late-night transit and logistics market.

16-PERSON DEDICATED TEAM

- Pumping Attendants
- Retail Cashiers
- Security Personnel
- Maintenance Staff

Expertly trained for safety and premium service.

DODO BUSINESS MODEL

Dealer Owned, Dealer Operated model providing full control over operational standards, inventory management, and 100% profit retention.

12 MONTHS TO LAUNCH

MONTH 1-3

PERMITTING & LICENSING

Securing all local government clearances, environmental permits, and site finalization in Caloocan South.

MONTH 4-6

SITE CONSTRUCTION

Groundbreaking and major civil works, including underground tank installation and structural framing.

MONTH 7-9

EQUIPMENT INSTALL

Installation of fuel pumps, ultra-fast EV chargers, and the iconic solar canopy system.

MONTH 10-11

TEAM & INVENTORY

Hiring and training of 16-person staff and initial stocking of the premium convenience store.

MONTH 12

GRAND OPENING

Official launch with a major marketing blitz and community engagement events.

LET'S FUEL THE FUTURE TOGETHER

BE THE FIRST TO POWER THE NEXT GENERATION OF TRANSPORT IN
CALOOCAN.
